A batch of bills was referred to the finance committee without reading.

He suggested that a committee be appointed to consult with the officers of the G. A. R. post in order to get a correct list of such persons.

The clerk stated that he had blanks for each alderman.

Ald. Carpenter read the following:

JANESVILLE, Wis., Oct. 10, 1887.  
Ordered, by the Mayor and Common Council:

That the following additions to the original pipe line adopted by the common council November 15th, 1883, diagram marked "A" bearing date August 23, 1886, as follows:

There being some question about the validity of the bond, Mayor Winans drew up the following resolution, which was introduced by Ald. C. C. McLean:

WHEREAS, The bid of John Martin & Co., has been accepted for the repairing of that part of West Milwaukee street now paved with Nicholson pavement, and

WHEREAS, The city, with the consent of said contractor, has postponed the commencement of the work to May 1, 1888, in view of the condition of said street and the lateness of the season, therefore

Ordered, That said work of re-paving under said bid and contract be begun on May 1st, 1888, and be completed within thirty days thereafter. Notwithstanding hereupon shall be construed as waiving the execution and delivery of the bond required by the charter for the doing of and work of re-paving said street, and that said bond be made and filed with the city clerk on or before the 17th day of October, 1887.

A STATEMENT OF BELIEF.

The Rev. Sedgwick P. Wilder's Views on Important Doctrinal Questions.

What Is and What Is Not Consistent with the Life and Conduct of a Christian.

Mr. Wilder's Creed as Approved by the Recent Council of Installation.

At the installation service in the Congregational church last week, one of the most important matters considered was Rev. S. P. Wilder's statement of belief.

So general has the desire for its publication been, that we feel called upon to comply. The statement is as follows:

I believe in God, the Father Almighty, Maker of heaven and earth, infinite in love, wisdom and power. His creative presence is revealed to man in the rational intuitions which demand his rational response as the absolute being, the self-existent first cause, the source of all power in the universe. His intelligent personality is manifest in the indubitable evidences of design on every hand, which attest his rationality in the design.

All science is but the reading of the book written in the creation. Science would be impossible were there not an intelligent being behind nature as its source and director.

I read God's character as holy and just and merciful, in the moral nature which he has given to man and in the moral law which he has given to the human conscience. I see his controlling hand in the history of the race, which bears traces of his guidance and direction as a compass.

The belief that back of all human action is an almighty power that makes for righteousness. I believe that this supernatural power is exerted in infinite wisdom to carry out the behests of perfect love; and that God has created this universe that the boundless realms of space might be filled with expressions of that divine love and echo the divine joy.

For this I believe that God made man in his own image, to be like himself, capable of close communion and intimate fellowship with Him of whose nature he partook; designed to walk with the Father in His ways of holiness and peace, and to share His blessedness forever; so constituted as to be able to find His supreme good only in constant and loving union of heart and will and life with His Maker, yet clothed with the terrible responsibility of freedom to choose the ends for which he will live, unconstrained either toward good or evil by any power outside himself.

I believe that in the exercise of this freedom, and following the impulses of his lower nature, man has sinned in turning away from God, despising his birthright, preferring the temporal before the eternal, disobeying the voice of conscience, transgressing the law of God and putting his own selfish will in opposition to the righteous will of his Creator.

I believe that by this course man has involved himself in guilt and condemnation before God, and exposed himself to the just penalties of disobedience to divine law, and that he needs, above all things, the gracious forgiveness of his Heavenly Father. He has become separated in affection and desire from that Father, and needs to be brought near to him in reconciliation and peace. The purity and beauty of the divine mind within him have been defiled by sin and need to be cleansed and restored. His spiritual sight has become dim and distorted, his judgment perverted, his will enfeebled, his whole nature brought in greater or less degree under the dominion of evil; so that he needs divine strength and aid and guidance at every step of his upward way. Without these transformations of character and this help from above he is already lost beyond hope of recovery.

I believe that through all the long and terrible ages of man's wandering and helplessness, the infinite love of God has followed him, never deserting him, never failing him; that God has freely offered pardon and cleansing and help to all who would come in penitence and faith to their Father's house. Wherever man has sinned, there God has come with offers of mercy, moving upon all hearts, whether amid heathen darkness or in Christian light, speaking to all men by many voices, and seeking by all means to turn them from sin; and no soul of man that, in the utmost blindness and feebleness has reached out with yearning cry after God and struggled toward him has ever been beaten back despised as a useless thing of clay.

I believe that in the inefficiency of all these efforts, for the general redemption of mankind, God has led help on one who is mighty to save. I believe in Jesus Christ, His son, the only Son begotten of the Father, who was manifest in the flesh as the divine Savior of the world. Being in the form of God, he yet clothed himself with our humanity and made himself subject to the limitations of our finite nature, living and dying as a man among men, that he might redeem a lost world.

He came not as an afterthought to patch up a shattered system, but as a new exponent to sustain a failing government; not to assert nor vindicate one set of the divine attributes as distinguished from others. He came according to God's eternal plan, in the fullness of God's eternal love, to do a work that would bring man back to the beginning of the world. He came to manifest the whole nature and will and law of God. He was himself the complete revelation of God's infinite love and grace, and the fullness of God's eternal life, in the flesh, that he might redeem a lost world.
